In February of 2017, UNISIM reached an important mark: 100 graduate students (82 MSc and 18 PhD; 97 in the Petroleum Science and Engineering at UNICAMP/Brazil and 3 in partnership with IST/Portugal). The mark of 50 graduate students was reached in 2010.

This edition of UNISIM ON-LINE is dedicated to celebrate this mark and to recognize all students listed in the table below for their excellent work and their contribution for the success of the group, represented by Figure 1.

In 20 years, also 63 undergraduate students have concluded their works in the group and 31 obtained other graduate degrees.

Figure 2 shows where these students are working today. Most of them are working in Petrobras, other petroleum companies and universities (only 2% are working in companies not related to petroleum or research).

In addition, UNISIM has reached the mark of more than 70 millions reais in research and development projects from 1996 to 2021.
